Pentel R.S.V.P.

Ball point pens

MATERIAL SAFETY DATA SHEET

Pentel of America, Ltd.
2715 Columbia St.
Torrance, CA 90509
310-320-3831 (information)
800-421-1972 (emergency)

SECTION I - PRODUCT IDENTIFICATION

PRODUCT NAMES: PENTEL BK91 RSVP
PENTEL BK90 RSVP
BK91RD RAZZLE-DAZZLE PENTEL RSVP
BKL7 REFILL
BKL10 REFILL
BKS10H REFILL
BKC10 REFILL
BK91 RSVP MINI PEN
BK91MN RSVP MINI COLORS
BK91 CR RSVP COLORS
BK93

PRODUCT SIZE: 0.3 GRAM
PRODUCT CLASS: BALL POINT PEN

SECTION II - HAZARDOUS INGREDIENTS

None

SECTION III - PHYSICAL AND CHEMICAL CHARACTERISTICS

Boiling Pt.: N/A Melting Pt.: N/A Vapor Pressure: N/A
Specific Vapor Density (AIR=1): N/A Specific Gravity: N/A
Solubility in water: N/A Reactivity in Water: Non-Reactive
Appearance and odor: BALL POINT PEN

SECTION IV - FIRE AND EXPLOSION INFORMATION

Flash Point (Method): N/A
Auto-ignition Temperature: N/A
Explosion Limits In Air (% Vol): Not Explosive
Extinguishing Media: No Special Media Required
Fire Fighting Procedures: None Required
Unusual Fire & Explosion Hazards: Not Combustible

SECTION V - PHYSICAL HAZARDS/REACTIVITY

Hazardous polymerization products: None
Stability: stable conditions to avoid: None
Incompatibility (materials to avoid): None
Hazardous decomposition products: None

SECTION VI - HEALTH HAZARD DATA

Permissible exposure level:	See Section II for Component PEL/TLVs
Primary routes of entry:	Eye, skin, and ingestion
Effects and symptoms of acute exposure:	None expected
Effects and symptoms of chronic exposure:	None expected
Carcinogen listing:	NTP: No IARC: No
See Section II for components affected	
Medical conditions usually aggravated by over exposure to this product:	None
First aid measures:	None required.
No acute health effects expected.	

SECTION VII - SPILL OR LEAK PROCEDURES

Precautions to be taken during storage and handling:	None required.
Steps to be taken in case material is spilled:	None required.
Waste disposal method: dispose in accordance with federal, state, and local regulations.	

SECTION VIII - PROTECTIVE EQUIPMENT/CONTROL MEASURES

Respiratory protection & special ventilation requirements:	None required
Other protective equipment (gloves, goggles, etc):	None required
Work/hygiene practices:	None required

SECTION IX - ADDITIONAL INFORMATION AND WARNINGS

THIS INFORMATION SHEET IS FOR CONSUMER USE ONLY

SECTION X - COLOR INFORMATION

THIS MSDS APPLIES TO THE FOLLOWING COLORS WHICH ARE ASSOCIATED WITH HAZARDOUS AND/OR NON-HAZARDOUS INGREDIENTS:

<u>Product Color</u>	<u>Hazardous Ingredient</u>
A-BLACK	none
B-RED	none
C-BLUE	none
D-GREEN	none
DOK-PINK	none
DOK-TURQUOISE	none
F-RED ORANGE	none
P-PINK	none
S-SKY BLUE	none
V-VIOLET	none

Safety Data Sheet (SDS) Inquiry

This letter is in response to your request for a Safety Data Sheet (SDS) of products manufactured and/or distributed by Pentel of America. Pentel products are evaluated in accordance with guidelines set up by CPSC (Consumer Product Safety Commission) in accordance with LHAMA (Labeling of Hazardous Art Materials Act) as stipulated in ASTM D4236. Accordingly they are evaluated for Safety by the Chief Toxicologist at Duke University in the WIMA and ACMI programs. Third party lab evaluations are conducted by CPSC approved lab, Kirby Memorial Health Center. Our products are determined nontoxic to humans unless designated on product and packaging provided at point of purchase.

SDSs (Formerly known as MSDSs) are required under the Occupational Safety and Health Administration (OSHA) Hazard Communication Requirements 29 CFR 1910.1200. Products manufactured and distributed by Pentel of America, LTD. are considered "articles" and are not considered hazardous materials as defined under either the OSHA Hazard Communication Standard 29CFR Section 1910.1200 or the Toxic Chemical Release Reporting; Community Right-to-Know (40 CFR, Part 372) commonly referred to as SARA Section 313 rule.

Requirement 29CFR 1910.1200 (b)(6)(iv) exempts "articles" from SDS requirements and other communication requirements of OSHA Law.

The term "article" is defined in 29 CFR 1910.1200 (c)(i), Federal Register citation 52 FR 31852 (August 24, 1987) and SARA Section 313.

"Article" Means a manufactured item: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which does not release, or otherwise result in exposure to, a hazardous chemical under normal conditions of use.

In February of 1994, OSHA amended the Hazard Communication Standard and Modified part 3 to read: *Does not release more than very small quantities of a hazardous chemical under normal conditions of use.*

Thus the current definition of an Article is:

"Articles" by definition of the standard, "means a manufactured item other than a fluid or particle (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

OSHA has indicated that Office Products, Pens and Pencils are considered Articles which are exempt from SDS requirements.

Canadian Law

Canada has been refining the exemptions, but it appears that consumer products and articles remain exempt from Hazcom in Canada also.

H-3 - Hazardous Products Act History ❖

2009 version:

12. This Part does not apply in respect of the sale or importation of any

(f) Product, material or substance included in Part II of Schedule I and packaged as a consumer product;

Part II Schedule I → 1. Chemical products as defined in the Consumer Chemicals and Containers Regulations, 2001.

(i) Manufactured article

❖ 2013 version:

12. This Part does not apply in respect of the sale or importation of any

(f) Consumer product as defined in section 2 of the Canada Consumer Product Safety Act; (i) Manufactured article

❖ 2015 (Current version)

12 This Part does not apply in respect of the sale or importation of any

(f) and (g) [Repealed, 2014, c. 20, s. 113]

(i) Manufactured article; or

(j) Anything listed in Schedule 1

- Schedule 1 - Non-Application of Part II → 5) Any consumer product as defined in section 2 of the Canada Consumer Product Safety Act
- CCPSA section 2 → consumer products - means a product, including its components, parts or accessories, that may reasonably be expected to be obtained by an individual to be used for non-commercial purposes, including for domestic, recreational and sports purposes, and includes its packaging.

Thus Canadian Law as in the US does not require an SDS for Articles, Office Materials, Pens or Pencils where there is minimal exposure regardless of whether used in the workplace or for personal use unless the workplace exposure would be greater than anticipated in normal consumer use.

Sincerely,

Phyllis Wang

Manager, Total Quality Control & Consumer Quality Assurance
